

Applications:

PVC-U pressure pipes excellent for transporting water supply, aqueducts and irrigation.

Properties:

Suitable for use above and below ground.

Durability for long and reliable service.

Maximum resistance to different weather conditions.

Standart Colors:

Grey / Blue / Cream

Length:

Up to 5 meters.

Different lengths can be supplied on request.

Materials:

PVC-U

(Poly Vinyl Chloride Un-plasticise).

Temperatures Range:

0°C < Temp <70°C

Standards:

ISO 1452

Israeli Standard SI 71452

RoHS, Reach Standard

Code	External Diameter O.D. mm	PN 10 (S 10-SDR 21)	PN 16 (S 6,3-SDR 13,6)
		Wall thickness (mm)	Wall thickness (mm)
RG-020	20		1,5
RG-025	25		1,9
RG-032	32	1,6	2,4
RG-040	40	1,9	3,7
RG-050	50	2,4	3,7
RG-063	63	3,0	4,7

Nominal pressure PN based on design coefficient C=2,5
